

GET GROWING!

Phase I- \$115K: COMPLETED!

Phase I of our Capital Campaign cultivated community partnerships and added much needed amenities where kids and families could learn and grow together!

- In partnership with Phillips 66, the Y established a **COMMUNITY GARDEN** where youth, families and seniors come together to learn about gardening and work together to maintain and share in the fruit of the garden!
- In partnership with Phillips 66 and KABOOM, a **STATE-OF-THE-ART PLAYGROUND** was designed by community children and built by community volunteers to provide a safe, engaging and FUN place for kids to play outside!

GROWING UP!

Phase II- \$547K: COMPLETED!

Phase II of our Campaign is complete! With partnership from Phillips 66 and Barriere Construction, key facility additions were completed at the Belle Chasse Y.

- The **1/3 MILE WALKING TRACK** adds a healthful amenity to the campus and makes possible the addition of quality programming like Girls on the Run. The track also plays host to community fun runs and will soon be home to a track program for youth.
- **FIVE ACRES OF MULTI-PURPOSE FIELD SPACE** inside of the track created space for a wide variety of activities ranging from youth and adult sports, expanded fitness amenities, and community event space.
- A **PARKING LOT EXPANSION** to meet the increased demand of members and participants in programs and events.

COME TOGETHER!

Phase III- \$2M

Phase III of our Campaign continues our progress toward completing a multi-purpose community and wellness center. During this phase, we are seeking the support of our neighbors and community conscious partners.

The YMCA has plans to build a new **9,692 SQUARE FOOT GYMNASIUM AND COMMUNITY CENTER** addition to its Belle Chasse facility.

The new center will be designed with flexibility in mind with the ability to configure the gym in a multitude of ways in order to optimize the space for a variety of different programs and events. This includes full-court and multi-court capabilities for sports like basketball and volleyball.

During sports games and special events, retractable bleachers will be able to accommodate nearly **200 SPECTATORS**.

The new facility will also include:

- A large **MULTI-PURPOSE CONFERENCE ROOM** available for Y programs and community meeting space.
- A **CONCESSIONS STAND**, which opens to both the gymnasium vestibule, as well as a new covered serving space for the pool area.
- A **RECEPTION AREA** with dedicated administrative office space.
- Additional storage for athletic equipment.

Completion of the project is anticipated in **SPRING 2019!**
